CAREER OBJECTIVE

B. Tech graduate in Artificial Intelligence with hands-on experience in Python, SQL, REST APIs, data preprocessing, data analysis, machine learning, NLP fundamentals, and AI-based projects. Experienced in working with datasets, evaluating ML models, developing Python scripts for data cleaning and transformation, and building dashboards for data visualization. Interested in Data Engineering, Generative AI, Machine Learning, and recommendation systems.

KEY SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Database: SQL, MySQL, PostgreSQL, MongoDB, Pandas, NumPy

Data Science & AI/ML: Machine Learning, Scikit-learn, TensorFlow, NLP, Generative AI, Data Analysis

Data Processing & Visualization: Data Preprocessing, Data Cleaning, Data Transformation, Power BI, MS Excel

Frameworks & Tools: React.js, Django, REST APIs, Git, GitHub, Visual Studio Code, MS Excel

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Agile, Scrum

Soft Skills: Communication, Problem Solving, Team Collaboration, Adaptability, Time Management, Quick Learner

EXPERIENCE (INTERNSHIPS)

Machine Learning Intern | Road2Tech, Pune

December 2025 – July 2026

- Developed and tested machine learning models using Python.
- Performed data preprocessing, data analysis, and model evaluation on project datasets.
- Worked with datasets to improve model accuracy and performance.
- Collaborated with a cross-functional team on AI-based projects, participating in code reviews and iterative improvements.
- Worked with Python and SQL for data-driven project requirements.
- Built and tested REST API endpoints to integrate ML model outputs with backend services.

AI Intern | Edunet Foundation

December 2024 – January 2025

- Analysed AI model behaviour and contributed to predictive accuracy improvement.
- Developed Python scripts to clean and transform datasets for machine learning workflows.
- Collaborated on evaluation of NLP-based features and outcomes.
- Built Power BI dashboards to visualize AI performance metrics and feature importance.

Python Developer Intern | iBase Electrosoft LLP, Nagpur

July 2022 – August 2022

- Developed web interfaces using HTML, CSS, JavaScript, and Python backend integration.
- Worked with SQL queries and data rendering for dashboards.
- Wrote reusable Python functions and performed module-level testing.

PROJECTS

FarmCare AI – Smart Agriculture Platform

- Developed an AI-based platform for crop recommendation and plant disease prediction.
- Performed data preprocessing, data analysis, and feature handling for agricultural datasets.
- Implemented machine learning models using Python, Scikit-learn, and TensorFlow.
- Integrated PostgreSQL and Supabase for data management and application functionality.
- Built REST API endpoints using Flask to serve crop recommendation and disease prediction outputs, integrated with PostgreSQL and Supabase.

AI Meeting Follow-up Agent

- Built an AI-powered system using Google Gemini Multimodal AI to analyze meeting video recordings and auto-generate structured reports and follow-up emails.
- Designed a dual-mode architecture (CLI + React/FastAPI web dashboard) with Pydantic schema validation for reliable structured JSON outputs.

- Implemented end-to-end pipeline: video upload, multimodal analysis, action-item extraction, and Markdown report generation.

AI-Powered Pharmaceutical Complaint Management System

- Built an end-to-end QMS complaint intake system using React + Redux frontend and FastAPI backend, powered by a LangGraph StateGraph AI agent.
- Integrated Groq LLM (gemma2-9b-it) for zero-hallucination entity extraction from unstructured complaint emails and PDF reports, with automated cGMP risk triage.
- Implemented conversational field correction, persistent database ledger with SQLAlchemy ORM, and a Pytest-based automated test suite.

EDUCATION

G. H. Raisoni College of Engineering, Nagpur

B.Tech. in Artificial Intelligence

September 2023 – May 2026

Government Polytechnic, Bramhpuri

Diploma in Computer Technology

December 2020 – May 2023

CERTIFICATION

- AWS Cloud Practitioner Essentials
- Oracle Cloud Infrastructure | Oracle
- AWS Educate Introduction to Generative AI | Amazon Web Services
- Web Development Fundamentals | IBM

ACHIEVEMENTS

Technical Volunteer – AI Odyssey, Nagpur

- Assisted in organizing technical sessions and live demos.
- Supported 100+ participants with real-time problem-solving and event coordination.
